March 27, 2026

The Honorable Tom Cole  
Chairman  
Committee on Appropriations  
H-305 The Capitol  
Washington, D.C. 20515

The Honorable Rosa DeLauro  
Ranking Member  
Committee on Appropriations  
1036 Longworth HOB  
Washington, D.C. 20515

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for the US Highway 2 Safety Improvements - Sultan, WA project in Fiscal Year 2027. The entity to receive funding for this project is the City of Sultan, located at 319 Main Street, Suite 200, Sultan, WA 98294.

The funding would be used for improvements along US Highway 2 which have been identified by a local transportation impact study. This project includes consultant services for roundabout design, environmental review, and preliminary engineering necessary to advance the project. This project is an appropriate use of taxpayer funds because regional traffic congestion concerns have limited economic development opportunities Sultan. With a rapidly growing population, Sultan is well positioned to support manufacturing and light industrial development with a local workforce. However, concerns including freight reliability and the need for efficient and timely shipping and receiving on US Highway 2 have limited development. This project would support local business growth, improve regional transportation reliability, and improve the safety of infrastructure relied on by travelers across Washington state.

This project has a federal nexus because the funding provided is for purposes authorized in 23 USC 133.

I certify that neither I nor my immediate family have any financial interest in this project.

Sincerely,

Kim Schrier, M.D.  
Member of Congress
